It is an England Golf competition with the first stage being played at club level. Handicap allowance is 50% of the partners' combined course handicaps. Players need not play with same partner when attempting to qualify, but must NOT change qualifying partnership for Divisional and Regional Finals. Qualifying cards to be played between 1st November and 1st May. Two best scores will go forward to divisional/regional finals.

Texas Scramble

Teams of 4 Players; each member of the team playing his or her own ball. But each succeeding shot is played from the spot of the single best preceding shot. For example, after all four team members hit their drives, the best of the four drives is selected. The other three players pick up their balls and move them to the spot of the best drive. The second shots are all played from that location. This process continues until the ball is holed.

Greensomes, Stableford - Pairs

Four ball match; pairs playing off 60% low handicap + 40% high handicap. All players drive off, then best-placed ball is selected and thereafter the two players in each team play alternate shots.

Foursomes - Pairs

Four ball match; pairs playing off 1/2 of combined handicaps. Partners play alternately off the tee and alternately to the green with one ball.

American Foursomes - Pairs

Stableford; 1/2 of combined handicap. Each player drives off then hits partner's ball. One ball is selected and the other ball is picked up and alternate shots played thereafter. (If player A's ball is selected they will be playing the third shot with their own ball). Penalty shots do not affect the order of play.

PLEASE NOTE that we play this competition on several occasions during the year and the handicap allowances and format may be different – eg. stableford/strokeplay
